About the Department

The Fayette County Sheriff's Office is composed of men and women who proudly serve their community, county, and country. Sheriff Deputies enforce local, state, and federal laws every day to protect persons and property within the Fayette County community.

A Sheriff's deputy encounters hazardous situations every day, with the potential of injury, and death being the ultimate price to protect and serve Fayette County. The Fayette County Sheriff's Office also has men and women who are correctional officers, a cook, secretary, and in communications, which are within the parameters of inmates, hostile complainants, and the general public.

About the Tournament

All proceeds from this tournament will go the Fayette County Sheriff's Office Memorial and Benevolent Society to support the employees of the sheriff's office and their families. We do not welcome tragedy to our family here at the Fayette County Sheriff's Office, but should we be faced with such, we will have some form of support to help those loved ones directly affected.

This tournament will raise funds to support and absorb some of the costs associated with the expenses faced by families of the heroes who paid the ultimate price serving the people of Fayette County and those visiting here.

Some uses of the Memorial and Benevolent Society's funds include:

- emergency relief for employees who become victims of natural disasters or crimes;
- educational expenses of children of employees killed in the line of duty;
- placement and maintenance of monuments honoring law enforcement officials; and
- support of outreach efforts to inform the public of the protections derived from law enforcement and corrections officers.
